On Main Street

Los Lobos

Nothing better than walking down the boulevard
Feeling the sun on my face
Watching Maggie and Connie with their little kids
Running 'round all over the placeGot a red light
Got a green light
Don't matter which way I goDown main street
Down easy street
It's when I feel like I'm homeNothing better than strolling down the boulevard
With a little time on my side
All worries gone away to somewhere else
Only with one blink of an eyeGot a red light
Got a green light
Don't matter which way I go
Going home
The only place I know
Take me there
Where the days go slowNothing better than running down the boulevard
Getting a little dirt on my shoes
With my brothers and sisters hanging all around
Chasing away all of my blues
