

Little Wonder

Jamie Woon

Coming up and I don't know why
Calling you across the distance
To the echoing inside
Little wonder come alive
Call it in the sacred nightGet us on the glowing
There's a space and a time for us
On the path of no resistance
Where the echoing collides
Little wonder come alive
Call it in forsaken lightIf we go on the wind
Be around for a friend
Putting down what we know
We can rest, we can growCall it in the sacred night
