

# Sea Of Faith

## Ufo

Say sayonara, darling  
This time goodbye  
No bon voyage, it's time to fly I can see the breakdown coming  
Like a twisted wreck  
Let's save ourselves the sorrow  
Before we hit the deck From the high plains to the border  
All across the land  
From the flying of the flag  
To lovers' kissing hands You can cover me in roses  
Put nickels on my eyes  
There'll be no tomorrows  
No more goodbyes Sea of faith, where did she go?  
Diamonds, how you shine and glow  
Looking at the future, I don't know  
I am just here to watch the river flow A street full of whispers  
Rings like a Chinese gong  
A room full of would be's  
Whose lives have gone wrong The blues don't exist now  
Just to cleanse your soul  
They were made to wake you up  
Not to dig a hole You can cover me in roses  
Put nickels on my eyes  
There'll be no tomorrows  
No more goodbyes Sea of faith, where did she go?  
Diamonds, how you shine and glow  
Looking at the future, I don't know  
I am just here to watch the river flow Say sayonara, darling  
This time goodbye  
No bon voyage, it's time to fly I can see the breakdown coming  
Like a twisted wreck  
Let's save ourselves the sorrow  
Before we hit the deck Something of a tragedy  
It would make you weep  
When you kiss your love goodnight  
Now I see why lovers leap You can cover me in roses  
Put nickels on my eyes  
There'll be no tomorrows  
No more goodbyes Sea of faith, where did she go?  
Diamonds, how you shine and glow

Looking at the future, I don't know  
I am just here to watch the river flowDiamonds, how you shine and glow  
(Sea of faith, where did she go?)  
Looking at the future, I don't know, I don't know  
(Sea of faith, where did she go?)I am just here to watch the river flow  
(Sea of faith, where did she go?)  
Diamonds, how you shine and glow  
(Sea of faith, where did she go?)
