

# Round & Round

## BEATS WORKING

Round and round and round we go  
Locked inside this crazy show you know it  
You play the game to win and lose  
You dont know which way you should choose and show itWastin your time  
So hard to findAnd now you find youve lost control  
You try to make your rebel yell and blow it  
The time has come to stand and fight  
To flick the switch turn on the light expose itWastin my time  
So hard to findYou try it time and time again  
A message that you just cant send is waiting  
You dont know when to come or go  
To start or stop or just let go dont show it(Instrumental)Round and round and round we go  
Locked inside this crazy show you know it  
You play the game to win and lose  
You dont know which way you should choose and show itWastin your time  
So hard to find  
Shouldve known better  
Never knowin the truth  
Who oh oh oh etc.
