

# Message to My Brother

Bobby Sherman

Take my hand  
And be my brother  
Show your love  
To one another  
Togetherness is all we need  
Cos happy words  
Make happy people  
And happy times  
Make better friends  
So find the times  
That will make you happy  
And never, ever let it end  
Never, ever let it end

Be my friend  
And understand me  
Speak the truth  
But don't command me  
Togetherness is all we need  
Cos happy words  
Make happy people  
And happy times  
Make better friends  
So find the times  
That will make you happy  
And never, ever let it end.  
Never, ever let it end

My fellow man knows what he's been through  
I hope you know the fight he's into  
Well, togetherness is all we need  
Cos happy times  
Make happy people  
And happy times  
Make better friends  
So find the times  
That'll make you happy  
And never, ever let it end.  
No, never, ever let it end

Ah, happy words  
Make happy people  
And happy times  
Make better friends  
So find the times  
That'll make you happy  
And never, ever let it end.  
No, never, ever let it end
