

What Were We Thinking Of

Barbra Streisand

Where did we go wrong?
Is it really over?
Where does my heart belong?
It it's not with you? We held on to our pride
When we left each other
But what good is pride tonight
When we're all alone Why did we give up on us so fast?
Isn't love supposed to last forever Oh, what were we thinking of?
Looking for something better
Reaching for more than love What were we thinking of?
Too late we both discovered
We're lost without each other What were we thinking of?
Tonight, I stay awake
Wanting just to call you Knowing my heart would break
If you were not home
So, I never call
And you will never answer You know the saddest part of all
Is I know you're there
Why do we run from the arms of love
When we really need each other more than ever? Oh, what were we thinking of?
Looking for something better
Reaching for more than love What were we thinking of?
Too late we both discovered
We're lost without each other
What were we thinking of, oh Both of us thought
We'd find true love with another
Why were we so blind?
It was right here all the time What were we thinking of?
Looking for something better
Reaching for more than love What were we thinking of?
Too late we both discovered
We're lost without each other What were we thinking of?
What were we thinking of?
Looking for something better
Reaching for more than love What were we thinking of?
Too late we both discovered
We're lost without each other What were we thinking of?
What were we thinking of?
Yeah, what were we thinking of?

What were we thinking of?
