

# Dead or in Prison

## Lil Bibby

[Hook]

Young nigga, chasin' millions  
Took advantage of the blessings I was givin', Lord  
I thought that I'd be dead or in prison  
I thought that I'd be dead or in prison[Verse 1]  
I used to want a coup and a thick bitch  
Now all I see is dead presis, got a sixth sense  
Every day I'm on the block I'm thinking, this' it  
My nigga outta town showed me how to flip bricks  
He said, "Fuck this rap shit, this how you get rich"  
They watchin' for that dirty money, I can't spend shit  
I gotta feed the fam, I came up with a plan  
I need some extra hands to help me move all these grams, for real  
They see a young nigga stuntin', now they want you killed  
Gotta watch out for these youngins tryna pay they bills  
I swear to god I liked it better back when I was broke  
I'm paranoid, I gotta keep my eyes on all these folks  
Never been a fool, ridin' with the tool  
Early in the mornin', takin' nephew to school  
They say I changed, I swear I'm the same dude  
Everything the same, I just change how I move[Hook]  
Young nigga, chasin' millions  
I took advantage of the blessings I was givin', Lord  
I thought that I'd be dead or in prison  
They told me I'd be dead or in prison  
I'm just young nigga, chasin' millions  
I took advantage of the blessings I was givin', Lord  
I thought that I'd be dead or in prison  
They told me I'd be dead or in prison[Verse 2]  
My big brother prolly be somewhere up in the feds  
My lil brother prolly be somewhere in jail or dead  
Thank god a nigga used his head  
I was stuck off in the slump just trynna get ahead  
I was just like you  
But I - seen a way out then what I do?  
I had to put my mind to it  
Niggas kept hatin', but I had to grind through it  
Bitch, I define music  
I ain't quit when shit got hectic

I did it on my own, niggas gotta respect it  
And this shit for my young niggas, in the hood with no father  
The shit I seen in these streets encouraged me to go harder  
And this shit is off the top, my phone died, I got no charger  
Keep it real with your self, I promise you, you'll go farther, eh  
And these niggas didn't believe me  
But now the whole world need me
