

Get On

Joe Cocker

HeyWell, you've been wearing your burden like a two ton chain
Take it off, throw it down
Send that petty party packing on the midnight train
Get it gone, ship it outCall him all curvy, skinny, don't matter ugly, pretty
Let's talk it down and dirtyIf you wanna catch a ride through a good time
This is a song, get on
And if you wanna have a party, we can start it right
What you waiting on, get onDon't let it slip away, it's all about today
Hear all the people say, get on, baby, get onWe got that boom, boom, bumping like a downtown quake
Wake it up, shake it down
We got the girls, all jumping at the Tucson Lake
Feel the love moving 'roundThe party's getting hotter, we got the fire, water
Turn up some Joe CockerIf you wanna catch a ride through a good time
This is a song, get on
And if you wanna have a party, we can start it right
What you waiting on, get onDon't let it slip away, it's all about today
Hear all the people say, oh, get on, baby, get onGet on, get on
Get on, get on, get on, get on, help me, ladies
Get on, get on, get on, get on, turn it up
Get on, get on, get on, get on, turn it up
Get on, get on, get on, get on all dayIf you wanna catch a ride through a good time
This is a song, get on
And if you wanna have a party, we can start it right
What you waiting on, get onDon't let it slip away, it's all about today
Hear all the people say right nowWe'll get you feeling right, just rock it and we'll talk
We'll rock it all night
Oh, get on, baby, get on, life, get on
Don't let the meek get on, that was get on
