

We Got the Love

Restless Heart

When the good Lord was handing out the best things from above
We got the love, we got the love I know we don't have a lot of money
 We can barely keep the bills paid honey
But when we're in each other's arms, who needs all that stuff
We got the love, we got the love Don't need the finer things
 Fancy cars or no diamond rings
 I wanna roll down a simple road
Rock with you till we get old Sometimes life's a desperate situation
 Sometimes it's just grim determination
But I know we'll do what it takes to make us tough enough
 We got the love, we got the love
We got the love, we got the love Don't need the finer things
 Fancy cars or no diamond rings
 I wanna roll down a simple road
And rock with you till we get old Built this house of bricks and stone together
 Trying to make it strong to last forever
But if these walls come tumblin' down we still ain't givin' up
 We got the love, we got the love
We got the love, we got the love Roll down a simple road
 And rock with you till we get old
 We got the love
 Roll down a simple road
 And rock with you till we get old
We got the love Roll down a simple road
 And rock with you till we get old
 We got the love
 Roll down a simple road
 And rock with you till we get old
 We got the love
