Let Me Go Easy

Indigo Girls

Come pleasure me again
I'm so tired of digging in
I've done my share, don't need to win
Just let me go easy
For two years my body fights
At this point it don't seem right
Just to do it out of spite
And keep hanging on
Go on, you let me go easy
Won't you let me go easy?
You let me go right now
I see the numbers dwindling
Of my enemies and of my friends
And still I know it never ends
So I'm passing you this torch
Fight the greed and the federals
Fight the need and the toxic spills
You drink from that wishing well
But may it never quench your thirst
Let me go easy
Go on, you let me go easy
Won't you let me go easy?
You let me go right now
Let me go easy
Go on, you let me go easy
Won't you let me go easy?
You let me go right now
So when you get to Ladenville
'Fore the tears, the fare thee wells
For a moment stand real still
And you'll feel me moving on
You go ahead with your plans
You won't be seeing me again
But you'll feel me in the hand
The hand that holds the plough
Let me go easy
Go on, you let me go easy
Won't you let me go easy?
You let me go right now.

Let me go easy
Go on, you let me go easy
Won't you let me go easy?
You let me go right now
