

Life of Mine (Acoustic)

Since October

Nothing kills me more than this life of mine
My past is a loaded gun, yesterday reminds
Anybody wanna walk with me, and let me tell you
I wanna tell you my story
Because it feels like
There's something better than this
There has to be something more
So take this from me
I'm desperate
It has to get better than this life and this time
But nothing kills me more than this life of mine
I second guess the truth, got nothing left to lose
All my doubts fuel the fire as it burns
Lessons learned
Anybody wanna walk with me, and let me tell you
I wanna tell you my story
Because it feels like
There's something better than this
There has to be something more
So take this from me
I'm desperate
It has to get better than this life and this time
But nothing kills me more than this life of mine
So take this from me
I'm desperate
It has to get better than this life and this time
But nothing kills me more than this life of mine
This life of mine
