

Cigarettes, Women and Wine

Chicory Tip

Every human being has a weakness of kind or he aint no human at all
Every man or woman has some habit you just cannot stall
Lots of people gamble, and alot of people swear, and alot of others live for TV
When it comes to habits Im the man who will always succeed. Cigarettes, women, and wine, are the only three
vices of mine
And each one is a must that I just cant give up, oh
Cigarettes, women, and wine
Cigarettes, women, and wine are the only three habits of mine.
With a girl and some wine, and a smoke I feel fine, oh
Cigarettes, women, and wine Father said be careful, and my mother said beware theres lots of freaky stuff you
dont need.
Stay away from habits that could bring you down on your knees Put me on an island in the middle of an ocean
With only three wishes to choose
I can count them in a second cause theres only three things I can use
