F.Y.I'm Free

Mondo Generator

Once I was alive
But not anymore
The Drano in my blood is eating my brain
I think my head's falling offFuck yeah, I'm free
I'm freeThis bottle cleans my guts
Light blinds my eyes
The shadows chase my mind
It happens all the time
Screams can't hear me at allFuck yeah, I'm free
I'm freeSpread it around, burns on the skin
From something, someone, who cares?
Burn some more, yeah, spread it around
More pills for the pain
Spread it around
I'm fuckin free
FreeNo one's as dumb as you with two glass eyes
I'd hold your hand and fuck you and tell you lies
It's coming to the endFuck yeah, I'm free
