

Faster

Violent J

I'm running racing freeway chasing
Climbing fast increase the pacing
Pick this shit up, come on with it
 Rip this shit, let's go and get it
Heartbeat rising, picking up motion
Spark that shit, chase that explosion
 Catch that action, feed me thrills
Wipe that sweat up, pop them pills
Death is closing in we f**king turn that fire up,
I'm cooking, panic looking, twitching, climbing
 Trouble I'm in tragic lies and
 all surprise sound the sirens
 Beat the pressure, weapons firing
 Mash the pedals, crank that shit up
 Beat the clock, let's rock so get up
 Why can't I settle down
 Pick it up! Pick it up! Pick it up!
 Why cant I slow it down
 Pick it up! Pick it up! Pick it up!
 Sweat is burning up my eyes
 And up the center lane I'm flying
 Hyper-speeds I'm slipping quick
 I'm swiftly falling off the cliff
 I turn the wheels with no control
 Into the blackness of this hole
 Beat the digger pull the trigger
 Passed the bullet falling quicker
 Barely breathing super-speeding
 And were weaving through the trees
 And ultra forward nitro levels
 Deeper than the reddest devils
 Rocket fuel sonic behaviour
 Mental meltdown ain't no saviour
 Feel the blast, shattered glass
 Fired up and moving fast

 Faster! Higher! Burning, fire!

Lose control much [faster] take me out much [higher] put me out I'm [burning] put me out I'm [burning] set my

brain on [fire]
I tried the drugs, can't relax
Here comes the train I'm on the tracks
Here comes the bullet and I'm stuck
Tell me why I'm always f***ked
Another tragedy inside, nowhere left for me to hide
Ain't no place to get away, ain't no way to save the day
Ain't no cover from the rain, ain't no escape from this pain
Ain't nobody I can blame, why am I f***king insane
