

# Life

## Ricky Martin

Life it's the only thing that you get for free  
Free is what we all want to be  
Take a walk around the block till you see  
Everything you want life to be Tell your mother, beg your father  
Respect your sister, talk to your brother  
Don't wait don't bother, don't try to save it  
Sooner or later, you will discover Oh life is for sure, but it's for sure  
You can make it and don't break it  
Oh life is for sure, but it's for sure  
You can make it and don't break it It's the love alive gets that is both  
Love it's the only dream in my heart and soul  
Easier to dream than it is to cry  
When you're in a love, goodbye Tell your mother, beg your father  
Respect your sister, talk to your brother  
Don't wait don't bother, don't try to save it  
Sooner or later, you will discover Oh life is for sure, but it's for sure  
You can make it and don't break it  
Oh life is for sure, but it's for sure  
You can make it and don't break it Beg your father, don't wait don't bother  
Sooner or later, you will discover  
You will discover, tell your mother  
Respect your sister, talk to your brother  
Don't wait don't bother, you will discover Tell your mother, respect your sister  
Don't wait don't bother, you will discover  
I thank your mother, thank your father
