

I'll Never Leave You

[Harry Nilsson](#)

Some nights I go to sleep without you
The river's far too deep without you
I can't make it alone, I need you by my side
Some nights I spend alone without you
The river's far too wide without you
I can't make it alone, I need you by my side
I'll never leave you alone, I'll never leave just a memory
I'll never leave you alone in the garden where nothing grows
I love you so much, baby
