

Blush Response (Difference Engine Remix)

Fear Factory

I am a being
My life has value
Seek as I seek the secret design
My purpose is to relate with out bitternessOr partiality from any motives
To which I am far removed
Fueled by antagonism
Accelerated panicHeaded towards a catastrophic event
Penetrating thoughts
Negative impressions
I don't feelI can't shed a tear for all the unnumbered dead
Desperate and exhausted the human character lays wasted
Like emotional distortion
Death is perceptible with definable features
I've had all that I can take
