

# Warm Sound

## Zero 7

Faith sealer, I don't feel you  
Don't hear you speak  
Maybe someone else will  
Help you to see Warm sounds falling slowly  
Takes the time away from me  
Warm sounds feeling no pain  
Taking the time away from me Fake feeler, I see through you  
With my eyes closed Warm sounds falling slowly  
Takes the time away from me  
Warm sounds, feeling no pain  
Taking the time away from me They can't tell me what they can't see  
How it feels here Just how it feels here  
Just how it feels here  
Just how it feels here  
Just how it feels here Just how it feels here  
Just how it feels here  
Just how it feels here  
Just how it feels here
