You Tonight

Lit

Take another look
Do you like what you see
I've been standing here watching you watching me
We can skip the get to know you tell me everything
I don't even need to know the truth
Cuz all I wanna do is take a chance on you
The party ain't over
But it's time to go
Let's slip out the back
And i'll drive you home
We'll lock up the bedroom
And leave on the lights
I want you see everything
When I ... you tonight
Take another step
A little closer to the edge
I'll be waiting there just hangin' on by a thread
You don't need to say another word it's understood
Turn around again I love the view
And all I wanna do is put my hands on you
The party ain't over
But it's time to go
Let's slip out the back
And i'll drive you home
We'll lock up the bedroom
And leave on the lights
I want you to scream out my name
When I ... you tonight
I've been standing here watching you
And all I wanna do is put my hands on you
The party ain't over
But it's time to go
Let's slip out the back
And i'll drive you home
We'll lock up the bedroom
And leave on the lights
I want you to see everything
When I ... you tonight
The party ain't over

But it's time to go
Let's slip out the back
And i'll drive you home
We'll lock up the bedroom
And leave on the lights
I want you see everything
And I want you to scream out my name
And I don't want you missin' a thing
When I ... you tonight
