# Wolf

## Kathryn Williams

You chose silence
You chose it more than life
You chose everything that you could
I knew from then more would be had from you
'Cause you blow the life
You blew the light
You blow the life out of her
You sit around
You sit around
Wanting her
To want you backYou don't see yourself as the wolf
You only see her as the girl
You won't be out in the woods
You'll be waiting for her behind the curtains
You don't see the mess you've made
You don't see the life you've taken from herWith every breath you suck in
You're more than the wolf
You're more than the wolf
Suck in like wolf
Suck in, suck in, suck in
Suck in, suck in, suck in
Sucking
