Breathe

Hear'say

Every breath that I take
You're the reason I can't live without it
I know, for sure
I'm addicted to you
Like a drug and there's no doubt about it
I need some more
'Cause the way that I feel about you
Is making me lose control
I want it all
Anywhere you go, baby, I'll follow
I will find you wherever you
Anytime or place in a million ways
I need you like every breath I take
And every move you make, oh yeah
Even if I would try
There's no way I could ever deny it
I want you near
More than words can explain
There's no letters invented to write it
Anywhere
'Cause the way that I feel about you
Is making me lose control
I want it all
Anywhere you go, baby, I'll follow
I will find you wherever you
Anytime or place in a million ways
I need you like every breath I take
And every move you make, oh yeah
'Cause the way that I feel about you
Is making me lose control
I want it all
Anywhere you go, baby, I'll follow
I will find you wherever you
Anytime or place in a million ways
Every breath I take
Anywhere you go, baby, I'll follow
I will find you wherever you
Anytime or place in a million ways
I need you like every breath I take

Anywhere you go, baby, I'll follow
I will find you wherever you
Anytime or place in a million ways
I need you like every breath I take
And every move you make
Like every breath I take
