

Living In The Shadows

Billy Talent

Constant quick fixes
They make no sense
Hop on bandwagons
They make me sick
Don't you tell me, what you think is right
(When your livin' in the shadows)
I can tell that, you have lost your sight
(When your livin' in the shadows)
Don't you tell me, what you think is right
(When your livin' in the shadows)
I can tell that, you have lost your sight
(When your livin' in the shadows)
Distant loud chuckles
They keep me awake
Awkward instances
Won't make you hip
Don't you tell me, what you think is right
(When your livin' in the shadows)
I can tell that, you have lost your sight
(When your livin' in the shadows)
Don't you tell me, what you think is right
(When your livin' in the shadows)
I can tell that, you have lost your sight
(When your livin' in the shadows)
We've said this all before
Your shadow's at the door
We've said this all before
Your shadow's at the door
There's darkness in the hall
And we won't take the fall
And we won't take the fall
Don't you tell me, what you think is right
(When your livin' in the shadows)
I can tell that, you have lost your sight
(When your livin' in the shadows)
Don't you tell me, what you think is right
(When your livin' in the shadows)
I can tell that, you have lost your sight
(When your livin' in the shadows)

Oh, don't you tell me, what you think is right
(When your livin' in the shadows)
I can tell that, you have lost your sight
(When your livin' in the shadows)
Don't you tell me, what you think is right
(When your livin' in the shadows)
I can tell that, you have lost your sight
(When your livin' in the shadows)
