

Your Pain Is Mine Now

Title Fight

Swept in like a dream
Drew the sting
then I died
White light trembling
Shadows bring
tears to eyes Twisted in a summer mist
burned alive a while
Wrestled with your loneliness
echoed from a wire Gattling gun
Your pain is mine now
See-through smoke
Clouds warping around
I know you're scared
Don't cry your eyes out
Gattling gun
Under your spell now Swirling through a tunnel view
Tangled in the dark
Flirting with a kiss of death
A canopy of stars
You'll sleep beneath them
I'm in your room
I am your nightmare
I am the moon Cry
Die
Boo hoo Gattling gun
Your pain is mine now
See-through smoke
Clouds warping around
I know you're scared
Don't cry your eyes out
Gattling gun
Under your spell now
