Agriculture

Jaded Juice Riders

there's nothing new under the sun
and i'm feeling number one
but it couldn't be real
but it couldn't be real

there's nothing new inside the earth
when your face is in the dirt
but it couldn't be real
but it couldn't be real

let's waste time under the stars and sky

i don't mind
agriculture that i like
over and over
i try anything
to pass the time

na na na na

there's nothing new under the sun
and i'm feeling number one
but it couldn't be real
but it couldn't be real

let's waste time under the stars and sky

i don't mind
agriculture that i like
over and over
i try anything
to pass the time

if i got nothing to say
then there is nothing to hide
and when i'm going away
that means you're falling behind

agriculture
agriculture

agriculture
agriculture
