

# Higher Ground (Live at Loud Park)

## Thunder

I feel the wind blow on the corner  
And I'm looking down along this dead end street  
All the people are getting older  
But they don't give a damn their lives are incomplete  
It don't look no better than it did before  
And I know what's happening behind each door  
If I don't get out today I'm gonna waste my life away  
And that's a part that I can't play I don't wanna spend my whole life in this town  
I can feel it driving me away  
Baby you and me were meant for higher ground  
We've got to steal away As a young boy I didn't fit in  
And I knew it then I wouldn't be the same  
But that was only in the beginning  
And as the time rolled on deeper grew the pain  
So give me one good reason why I should stay  
I think I've got enough money for the late night train  
There's a world you've never seen  
But I've been there in my dreams  
It's calling out to me I don't wanna spend my whole life in this town  
I can feel it driving me away  
Baby you and me were meant for higher ground  
We've got to steal away
