

# Until the World Ends

## Bridge to Grace

If everything will filling  
We Understand  
And every day we're living  
And I know when the day comes  
We'll find it all away  
I just confess  
Your courage to say Haven't I told you this  
We are just living  
for something else Haven't I told you this  
We're so lost in  
Lonely waiting for the end  
While I'm slowly falling  
For our friend  
Until the world ends  
The days are all behind us  
Everything is real  
And the World is all laydown And I Know when the time comes  
We will make it 'till the end  
I just confess  
The words left to say Haven't I told you this  
We are just leaving  
for something else Haven't I told you this  
We're so lost in  
Lonely waiting for the end  
While I'm slowly falling  
For our friend  
Until the world ends  
Just when all is down to gray  
Until the world ends  
Just when all is gone  
The shadow fades away Haven't I told you this...
