Murder Potion

Razakel

Listen up ya'll I got a little story to tell,
Straight out from the pierced lips of Razakel.
Since I came out of the womb,
Momma knew I wasn't quite right.
Daddy was a minister
I was never good enough in his eyes.
So I stayed up late at night,
With my voodoo dolls and black candles,
Hexing and cursing,
And casting evil spells.
I started touching myself,
And fantasizing about the devil.
Started sinning left and right,
So when I'd die I could burn in hell.
Momma could tell,
She got scared and told daddy.
They pulled me outta my room,
Sat me down and started asking.
Why are you so evil and why do you blasphem?
Because I hate your god and I'm possessed you see.
The devil fucks me in my sleep and in my dreams,
When I orgasm he strangles me and says I'm his wicked queen.
Come here and take a sip of my Murder Potion,
Feel the effects and put your hate in motion.
Poison in your brains saying god's name in vain,
I'm a plague and I'm here to stay,
And I'mma sin every fuckin' day.
Double double,
Toil and trouble,
Fire burn and cauldron bubble.
With the eye of the newt and the bowel of a trout,
I'mma show you what this Wicked Bitch is really all about.
You can go ahead and point your fingers at me,
Keep in mind I'm that bitch little girlies want to grow up to be.
How the fuck am I a bad influence?
Maybe coz I practice self-indulgence,
Not abstinence.
Huh?
I'm the beginning of a very new breed,

Destroying all the sheep and I still got people asking,
Why are you so evil and why do you blaspem?
Because I hate your god and I'm possessed you see.
The devil fucks me in my sleep and in my dreams,
When I orgasm he strangles me and says I'm his wicked queen.
All I'm sayin' is that death is innevitable,
So grab a metal bat and smash in your enemy's skull!
You're only doing the world a small favour,
Go make a difference instead of waiting for a false Saviour.
Come here and take a sip of my Murder Potion,
Feel the effects and put your hate in motion.
Poison in your brains saying god's name in vain,
I'm a plague and I'm here to stay,
And I'mma sin every fuckin' day.
Double double,
Toil and trouble,
Fire burn and cauldron bubble.
With the eye of the newt and the bowel of a trout,
I'mma show you what this Wicked Bitch is really all about.
(sex noises 2:32 - 2:47 coughing sounds 2:50 - 2:51)
Devil - You're my wicked queen.
Razakel - Come here and take a sip of my Murder Potion,
Feel the effects and put your hate in motion.
Poison in your brains saying god's name in vain,
I'm a plague and I'm here to stay,
And I'mma sin every fuckin' day.
Double double,
Toil and trouble,
Fire burn and cauldron bubble.
With the eye of the newt and the bowel of a trout,
I'mma show you what this Wicked Bitch is really all about.
I'mma show you what this Wicked Bitch is really all about.
I'mma show you what this Wicked Bitch is really all about.
