

# Over And Over

## Turin Brakes

Life isn't always easy  
This we know my friend  
I thought you knew where to go  
But you were following me  
So let's get lost in space  
I feel displaced  
I'm stuck in the rat race  
It's a lovely day to lose your way  
And get stuck in a loopOver and over again, you can never make it stop  
Over and over again, you can never make it stop  
(Cause life isn't always easy)  
Over and over again, you can never make it stop  
(Cause life isn't always easy)  
Over and over again, you can never make it stopMy old bones stroll along  
Railway track is oh so long  
Stem the tide, the nine to five  
Is slowly eating me alive  
But all night long, we carry on  
We're stumbling slowly to a lovely day to lose your way  
And get stuck in a loopOver and over again, you can never make it stop  
Over and over again, you can never make it stop  
(Cause life isn't always easy)  
Over and over again, you can never make it stop  
(Cause life isn't always easy)  
Over and over again, you can never make it  
You can never make it  
You can never make it  
You can never make it stop
