

Trees & Fire

Izzy Bizu

If I talked to me, do I need help?
If I left to space, would you follow my smell?
I'd walk on water just to cry for help
Cause trees and fire don't help themselves I'm not a girl, don't have a world
I am nothing in-between
What's my name? If I was to slam doors, am I worth the chase?
I know I don't mean half of what I say
I need your reassurance more than ever today
I'll save my truths for a rainy day I'm not a girl, don't have a world
I am nothing in-between
What's my name?
If I talked to me, do I need help?
If I left to space, would you follow my smell?
I'd walk on water just to cry for help
Cause trees and fire don't help themselves
Cause trees and fire don't help themselves
