

Superstar

Silk

See, I been watching you from afar
Twinkling like the star that you are
And I'll take it personal
If you say that you can't go
Oh just want to give you thrills you know I will
Oh me oh my
You're shining so bright
You're a twinkle in my eye
[1] If I can get you in my car
No matter how far, I'll come and get you
'cause you're my superstar
Hear me twinkle on my girl, where you are

If I can get you in my car
No matter how hard, I'm gonna get you
'cause you my superstar
Hear me twinkle on my girl, where you are
I'm doing ninety in a sixty mile zone
Trying to quickly get you to my throne

'cause you my queen, and I'm your king
Now soup it up so we can do this thing
And I want you, and you want me
How can we do it hmmm, let me see
You need a ride, I got a ride
You can't run and you can't hide, no
[Repeat 1][Repeat 1]Whassup can I pick you up?
You know that you my superstar
No matter how far
I'll come and get you with my car
Now whatchu want to do?
You know I want to be witchu
It's your body that I want to taste
I ain't got all day to wait
[Repeat 1 until fade]
