

# Garland

## Dirty Heads

there was a bright colored garland  
in the lights of my garden  
she said calm yourself darlin'  
I'll find your peace of mind for you

you  
you  
youuuoooo

into the darkness we'll find our freedom  
our hearts are one and together they beatin'  
stars they are fallen and that's so appealin'  
this feels like love and love feels like healin'  
anticipation slowly is buildin' we'll find our peace  
and that's so appealin' this is the moment I hear it callin'  
we'll sit together and watch as the stars they are fallen for you

there fallen there fallen  
she's callin' and fallen

there was a bright colored garland  
in the lights of my garden  
she said calm yourself darlin'  
I'll find your peace of mind for you

you  
you  
you ouuuuu

when my levels are stressed reach the peak at they crest  
I smell the flowers in her hair feel the lightness of her dress  
I lay my head down feel your heart through your chest  
breathin' in together we can blow it out the best  
it's the end of my worries troubles and dreams we can  
bury em together always knowing one thing when it grows from  
the earth it's the rebirth it sings and if it comes to fall apart  
it's a new start it brings yeah

there fallin there falling

shes calling and falling

there was a bright colored garland  
in the lights of my garden  
she said calm yourself darlin'  
I'll find your peace of mind for you

there was a bright colored garland  
in the lights of my garden  
she said calm yourself darlin'  
I'll find your peace of mind for you

you  
you  
you ouuuu

we walked alone inside our garden  
she showed me all the things I knew I do I knew I knew I do  
we walked alone inside our garden

oooo ohhew

there was a bright colored garland  
in the lights of my garden  
she said calm yourself darlin'  
I'll find your peace of mind for you

we walked alone inside our garden  
she showed me all the things she knew (I knew)  
we walked alone inside of our garden

there was a bright colored garland  
in the lights of my garden  
she said calm yourself darlin'  
I'll find your peace of mind for you

you  
ouuuu  
youuuuuuuuu
