

Letter To My Girlfriend

Stevie Ray Vaughan

I wants to know what you're doin' tonight
Wish I could see if everything was alright
Hold you long in my arms until it's light
Your smilin' face would make a wonderful sight I wants to be with ya, love with ya
Eat with ya, sleep with ya
Stay with me all of my life I loved ya darlin', when you was only sixteen
Was the sweetest thing to enter my dream
When we're together then my life is fulfilled
I love you darlin', I know I always will I wants to be with ya, love with ya
Eat with ya, sleep with ya
Stay with me all of my life I close my letter but never my love
Take it there to ya Heaven above
Get me back to you safe and sound
The day that I leave the prisoners ground I wants to be with ya, love with ya
Stay with ya, sleep with ya all of my life
