

Floaters In Mud

Sepultura

Stuck in the ground
Shopping for support, nothing can be found
The mind floats 'round
Crashing back and forth, never really stopping
Turn around and try to face yourself
You may think it looks like someone else
Look from outside they don't heal
I'm passing through shaking hands
Eyeless, shit faced, they're not real
Mud in the brain, all insane
Turn around and try to face yourself
You may think it looks like someone else
Raw display of pain
No shelter, refugee
No shelter, refugee
Floaters in mud
Turn around and try to face yourself
You may think it looks like someone else
Turn around and face yourself
Turn around and face yourself
Turn around and face yourself
