

The Way We Ride

T.I.

Swinging through with something new, top down, riding clean

Swinging through with something new, top down, riding clean

Top down, riding clean,

Top down, riding clean

Swinging through, swinging through (In my city that's the way we ride)

Top down, riding cleanSwinging through with something new, top down, riding clean

Swinging through with something new (In my city that's the way we ride)

Top down, riding clean

Top down, riding clean,

Top down, riding clean

Swinging through, swinging through (In my city that's the way we ride)

Top down, riding cleanGot my top down on my Bentley, I keep it pimpin' the mo

2-85 I be hittin', even when there's nowhere to go

My wrists that hang out the window, my Rollie shinning and shimmer

You see that bad bitch who with ya? If I want I can get er

Make her a active disciple, or envy and make the point

Make my suite presidential and then I fill it with strippers

Man I got chrome on my wheels, and your ho on my dick

Ride around, no roof on my whip, that's how you know I'm the shit

They know I'm rich, it don't matter

Bruh 'cause as fresh as I be

What she do for you you pay er

What she do me, for free

Cause I'm a G, still kick it with the trap nigga buyin' things

Swinging through with somethin' new, top down ridin' cleanSwinging through with something new, top down,
riding clean

Swinging through with something new, top down, riding clean

Top down, riding clean,

Top down, riding clean

Swinging through, swinging through (In my city that's the way we ride)

Top down, riding cleanSwinging through with something new, top down, riding clean

Swinging through with something new (In my city that's the way we ride)

Top down, riding clean

Top down, riding clean,

Top down, riding clean

Swinging through, swinging through (In my city that's the way we ride)

Top down, riding cleanAye clique, my old school is official, got them horses under my hood

Yea I'm ridin' round in your side of town, and I'm blowin' O's of that good rip

In the summer time I got to be

In the fly around, who higher than me?
Nigga catch hell tryna follow me
I bet Pimp C proud of me
I got the city lights in my rear view
We loud and can't hear you
Got a billion in my mirrors that could be closer than they appear to
Blowing big stacks, all we do is that
Valet my shit is feel, fuck up a chick a set
Then it's back to the drop, hit the gas, burn a gas
Got my double cup filled up, pint a lean sealed up
Bruh looking for me broad day whenever I'm seen
Swinging through with something new, top down riding clean
Swinging through with something new, top down,
riding clean
Swinging through with something new, top down, riding clean
Top down, riding clean,
Top down, riding clean
Swinging through, swinging through (In my city that's the way we ride)
Top down, riding clean
Swinging through with something new, top down, riding clean
Swinging through with something new (In my city that's the way we ride)
Top down, riding clean
Top down, riding clean,
Top down, riding clean
Swinging through, swinging through (In my city that's the way we ride)
Top down, riding clean
Ride quarter million, you see 8 R's nigga
Try me bitch, you see AR's nigga
Got purple stuff in my 20 ounce
I got bubble kush in my cigar nigga
Pull string, no guitar, put down, roll it dice what they hit for
I don't know if this is yo bitch
She on my dick, you better come get her
Don't want me on yo street with this clean paint and these white seats
She's gonna be inside here and you have no idea
How she be tryna get up in the whip whenever I'm seen
Rolling through the some new, top down ridin' clean
Swinging through with something new, top down, riding
clean
Swinging through with something new, top down, riding clean
Top down, riding clean,
Top down, riding clean
Swinging through, swinging through (In my city that's the way we ride)
Top down, riding clean
Swinging through with something new, top down, riding clean
Swinging through with something new (In my city that's the way we ride)
Top down, riding clean
Top down, riding clean,
Top down, riding clean
Swinging through, swinging through (In my city that's the way we ride)

Top down, riding clean
