Capture the Crown

What the fuck
Should I have done?
What the fuck
Should I have done?Say what you mean
The future isn't what it used to be
You tore out my heart
But I have found it again
Say what you mean
The future isn't what we used to be
You tore out my heart
But I found you bitchMove bitch
Get out the way
Get out of the way bitch
My hands are full
My mind is straightI'd hate to break this to you
You were never anything to me (anything to me)
The sharing of saliva
I'll spit it right back in your faceAm I losing my mind (wasting my time)
Raptured in these chapters
How do you turn the page?
When you're stuck in an empty placeSo what when I met you
So what if I gave it to you
The wrong impression (the wrong impression)What the fuck
Should I have done?
What the fuck
Should I have done?You were my drug [x4]
I hope you fucking die
Excuse me I told you to move
Excuse me I told you to move
