

Word Is Bond

Danko Jones

(Chorus:)

This is the time, this is the place
I'm gonna make it happen baby, I'm on the make
And there might be a million other people tryin' to get with this man
But I only got eyes for you And if you want to do it I will do it/ My word is my bond When I say I'm in love you
best believe I'm in love/ LUV, PYT
'Cause I am the phenomenon who always wants to get it on
I've chosen you, you're the one I know i come on strong
Just show me some leg and I'll be ready for bed
Gonna take you to the mornin' 'till you're light in the head And if you want it I will do it/ My word is my bond
And when I do it you will love it Now I know that everybody's been talkin' behind my back
saying all kinds of crazy things
But when I'm singin' 'bout 'ya , I'm thinking 'bout ya
And there ain't nobody else that I'm thinkin' about
Let me show you with this line, with this statement right here When you shake your booty baby, you get me so
hot hot (*4)(Chorus) And if you want to do it I will do it
My word is my bond
And when I do it you will love it
