

Futile (Nazi Bastard mix)

Velvet Acid Christ

Assimilate the night
They cut into your brain
They crack apart the skull
And stick the wires in
The computer relationship
A flame into the flesh
A cut into the brain
A cut runs in your face
You can't believe your head
You can't believe your eyes
Nobody can escape
The futile assesment
The futile assesment
Oh, futile
We're futile
Futile
You're futile
Futile religion
Futile expression
Your futile aggression
A futile obsession
Oh, futile assassination
You'll falter
Your generation
Your immoral futile assimilation
Expressionation
Annihilation
