

# Plunder

## Hellgrammite

Discontent slowly drifting far away  
Low feeling no healing a heart of stone  
    And as I plunder  
    As I fall astray  
    And if I should wander  
    Could you help me find my way  
    Intercept lonely tears along the way  
No passage here after, you're on your own  
    And as I plunder  
    As I fall astray  
    And if I should wander  
    Could you help me find my way
