Wanted Man

The Last Internationale

I've been fight for so long
In the shade is my home
And I been killing whether right or wrong
Between two sides I'm drawn and owned
And a thought that has left me alone
I am no one and I'll die unknown
Don't try to find me
Don't worry where I am
Or you wind up another wanted man
Wanted man, you'll be a wanted man
You will run and you will die a wanted man
Hoo Hoo (x4)
The road behind has disappeared
Drowned in the memories of your tears
And the shadow but it's still too near
No one to trust or choose to speak
I am the enemy that I fear
Lord forgive me when the smoke clears
Don't try to find me
Don't worry where I am
Or you will wind up another wanted man
Wanted man, you'll be a wanted man
You will run and you will die a wanted man
Wanted man, you'll be a wanted man
You will run and you will die a wanted man
Hoo hoo (x4)
Don't try to find me
Don't worry where I am
Or you will wind up another wanted man
Wanted man, you'll be a wanted man
Yeah you will run and you will die a wanted man
Wanted man, a wanted man
Yeah you will run and you will die a wanted man
Wanted man, a wanted man
Yeah you will run and you will die a wanted man
I been fighting for so long
In the shade is my home
And I been killing whether right or wrong
