Bloody Hell

Superdrag

my life is dull
it's so contemptible
and you're so strange
there's just so much to change
but i'll keep on breathing anyway
keep on breathing anyway
keep on breathing anywaymy life is numb
somewhat lesser when i bum
and i'm no good
even if it's understood
that i'll keep on seething anyway
keep on seething anyway
keep on seething anywaywho needs today
wishing it away
you made a mess of memy life is framed
with autobiographical acclaim
and you're so odd
you must be a messenger from god
