Lonely Road

The Junction

Trickling in depths of perception that I see
Sinking into debt for the man I wish to be
Grasping on the reins of the dreams that I believe
Swallowed by the darkness of insecurity
I want to write a song for you
I want to be a voice of truth

Until the day
I'll trek this lonely road
I'll keep trekking

This road is often forgiving but the giving rarely shows
Nine times out of ten it usually takes its toll
but every now and then some will come and they will say
We touched their heart
Opened their mind
Helped pave the way

Until the day
I'll trek this lonely road
I'll keep trekking this road

This only lonely road
x2

Until the day I'll trek
this lonely road
I'll keep trekking this road

This only, lonely road
x3
