Little Do They Know

Pool Cosby

Pool Cosby - Little Do They Know

Daddy only would we need to leave it
Indiana, Indiana, in the cold

said did you know you really don't need it
Leave the fame for the road
I remember when I wasn't leaving
I was only six years old
Oh how my heart was beating
about ready to explode

about ready, I was only, oh how my heart was
about ready, I was only, oh how my heart was
about ready, I was only, oh how my heart was
about ready to explode

about ready, I was only, oh how my heart was
about ready, I was only, oh how my heart was
about ready, I was only, oh how my heart was
about ready to explode

Butta, butta, buttacup your
cup your

Daddy only would we need to leave it
Indiana, Indiana, in the cold

said did you know you really don't need it
Leave the fame for the road
I remember when I wasn't leaving
I was only six years old
Oh how my heart was beating
about ready to explode

One shot honey
collect it all
the dust inside
the rusted soul
you should get it right

cause you cant control
the heart that beats under the bump

come on and come back chameleon
give it up
you got your life to attend to
buttercup
you're entertaining the chocolate
has told you the teeth is bounces a million
is dying to meet ya
when do they know
