

Touch

Daft Punk

Touch
Touch
I remember touch
Touch
I remember touch
Where do I belong
Touch
I need something more
I remember touch
I need something more
In my mind
Touch
I remember touch
Pictures came with touch
A painter in my mind
Tell me what you see
A tourist in a dream
A visitor it seems
I have forgotten some
Where do I belong?
Tell me what you see

I need something more
Kiss
Suddenly alive
happiness arrive
hunger like a storm
How do I begin?
A room within a room
A door behind a door
Touch, where do you lead?
I need something more
Tell me what you see
I need something more
Oh, Hold on
If love is the answer you haunt (x8)
Touch
Sweet touch
You've given me too much to feel

Sweet touch
You've almost convinced me I'm real
I need something more
I need something more
