

Fall Back

[Ollabelle](#)

Sun and rain, wind and snow
It feels the same as you go
See you drifting on your own
Lost and lonely so far from home Want to hold you, make it right
See you through your dark of night
I will stand by your side
I can hold the rising time Fall back to the one thing
One thing that remains
Fall back if broken
[Incomprehensible] down and find your way Sun and rain, wind and snow
Feel the same as you go
See you drifting on your own
Lost and lonely so far from home Fall back to the one thing
One thing that remains
Fall back if broken
[Incomprehensible] down and find your way
Fall back to one thing
The one thing that remains
