

Bring On Tomorrow

Barry Manilow

Sleep baby, sleep
lose yesterday's blues
when you're ready for morning
have I got news..
our ship's in the harbor...
the street's turning gold
whatever you're dreaming , it's no longer on hold..
Dream baby, dream
while you were asleep
I had mountains to climb and a promise to keep
now home is the hunter and holding the prize
I'm waiting tell you when you open your eyes(chorus)Bring on tomorrow for me and for you
we hung on through dark hours..dawn's overdue
bring on tomorrow and show me the sun
we'll live it together cause you are the one.Smile baby, smile
through canyon's of night
but you'll really be smiling by morning's light
they told us we're crazy
they promised I'd lose
forgive and forget them...
they're yesterday's news..(chorus)Bring on tomorrow for me and for you
we hung on through dark hours...dawn's overdue
bring on tomorrow and show me the sun
we'll live it together cause you're the one..Without you it's nothing..
why else would I climb?
Together forever, hearts beating in time..
Oh...bring on tomorrow for me and for you...
we hung on through dark hours, dawn's overdue
bring on tomorrow and show me the sun..
we'll live it together cause you are the one
