Human Again (feat. Jan Burton)

Metrik

Breaking out of comas
Running through the fire
Touching the horizons
Moved by your desireBlinded by the sunlight
Right between the eyes
Talk to all the angels
They don't criticizeI wonder what it's like
I wonder what it's like
Just to be human
Again
Is this the only life
Is this where we collide
Or are we human
AgainI wonder what it's like
I wonder what it's like
Just to be human
Again
Is this the only life
Is this where we collide
Or are we human
AgainI wonder what it's like
I wonder what it's like
Just to be human
Again
Is this the only life
Is this where we collide
Or are we human
AgainIs this the only life vayto perevel
