

Unknown Soldier (For Jeffrey)

Toto

Thousands of my brothers lay before me
On hallowed ground like ghosts I hear them cry
Young men taking bullets forged from blood,
smoke and fearAs I enter the valley of death and heartache
A river of blood as far as I can see
Angry and confused it's hard to stand and walk the lineShine on unknown soldiersThey fought and died at
Gettysburg and Shiloh
They're still fighting in the town where I was born
Nothing seems to change in this world that we seeSail on unknown soldier(Instrumental)Only God knows all
the unknown soldiers
How did they learn to hold a gun?
Was it just that got the oil to keep the enemy off our shoresSail on unknown soldierThe tears that fall for
innocence around us
The cry for peace is truly never heard
Why can't we see that history tells us
Nothing's ever learned?Shine on unknown soldiersSail on unknown soldiers
