

Firewalking

[Moonspell](#)

Help me fall from grace
Need you to be incomplete
I am the impostor at your feet Is it your first time
Or have been tempted before?
Downward into the pulsing life
Calling from below Try firewalking inside of me
When everything falls apart
Try firewalking inside of me
When everything falls apart Won't you fall from grace?
[Incomprehensible]
I am at the wing beat from my retreat Is it your first time
Or have been tempted before?
Downward into the pulsing secret
Laying, laying below Try firewalking inside of me
Try firewalking inside of me
Try firewalking inside of me
Try firewalking inside of me Try firewalking inside of me
When everything falls apart
Try firewalking inside of me
When everything falls apart When everything falls apart
When everything falls apart
Try firewalking inside of me
