Will You?

Chynna Phillips

Chorus:
Will you come back to me?
I've thought about it many times
Follow your destiny
I understand if you have to leaveTell me my love
Why have we separated again?Was it my love?
Have I controlled the fate of us again?I tried to rationalize it, but I was scared
That you would never be there for meAnd you tried to sympathize
You said, "Oh baby when will you believe in me?"(Chorus)Just another day
I'm searchin' for inspiration todayAm I too late? Has heaven already closed the gate?Cause I'd walk a million miles to be with you
And have your eyes looking right back at meAre you lost inside your mind?
Has confusion taken all of your reality?(Chorus)
