

# Just Can't Say It's Love

Frankie J

Girl you've been kicking it with me  
Constantly, for a while  
You just can't wait to hear those three  
Little words come from my mouth, yeah I just can't tell you or find the words for  
The way I feel about'cha, I just can't be without'cha  
I wanna say it so bad but something keeps telling me no  
Contemplating, still debating should I just let it go? I just can't say it's love but you already know what's up  
I really can't put it in words, baby, you got to feel me  
And I hope you can hear me it's only you I'm thinkin' of  
But still I just can't say it's love You probably think I'm runnin game  
But that ain't the case, I'm just not sure  
See I've made that mistake before  
Don't wanna hurt no more, babe  
I wanna take my time with you, yeah I just can't tell you or find the words for  
The way I feel about'cha, I just can't be without'cha  
I wanna say it so bad but something keeps telling me no  
Contemplating, still debating should I just let it go? I just can't say it's love but you already know what's up  
I really can't put it in words, baby, you got to feel me  
And I hope you can hear me it's only you I'm thinkin' of  
But still I just can't say it's love No matter if I wait this still could be fate  
Girl I get so frustrated my mind, my heart can't take it  
Just like the sun has the moon, baby, I want you  
But I just can't say, "I love you" I just can't say it's love but you already know what's up  
I really can't put it in words, baby, you got to feel me  
And I hope you can hear me it's only you I'm thinkin' of  
But still I just can't say it's love Girl, I just can't get played with  
Don't wanna admit it, never hear me saying  
Just can't say it's love  
I just can't get played with  
Don't wanna admit it, you will never hear me saying
